SUMMARY

UI/UX Designer & Design Engineer with 5+ years designing real-time operator dashboards, telemetry interfaces, and component-based design systems for complex technical platforms. Proven track record distilling multi-modal sensor telemetry and geospatial operational data (EV battery pack analytics for iRasus, rural ATM workflows for IndiaOne ATM) into high-clarity operator workflows. Combines advanced Figma design system architecture with hands-on frontend fluency (React, TypeScript, Tailwind CSS, Storybook handoff) and AI-assisted rapid prototyping to build mission-critical, low-latency operator experiences.

SKILLS

Dashboard & Interface Design: Real-Time Operator Dashboards, Telemetry & Sensor Data Visualization, Control Room & Operations Interfaces, Complex Workflow Simplification, Information Architecture, Wireframing & High-Fidelity UI, Accessibility (WCAG).

Design Systems & Handoff: Figma (Component Architectures, Variables & Design Tokens, Auto Layout, Interactive Prototyping), Developer Handoff Specs, Storybook Documentation, Design Language Systems, Responsive Layouts (Desktop, Tablet, Mobile).

Frontend & Rapid Prototyping: React, Next.js, TypeScript, HTML5, CSS3, Tailwind CSS, Component Props Architecture, AI-Assisted Prototyping (Cursor, Antigravity, GitHub Copilot).

User Research & Field Studies: Operator Interviews, Task-Flow Analysis, Field Usability Testing (Maze), Edge-Case Mapping, Agile / Scrum Collaboration with AI & Engineering Squads.

EXPERIENCE

Co-Founder & Design Engineer
Oct 2025 – Present

Commerce Agents (Product Studio) — Chennai, India

- Designed and prototyped mission-critical telemetry and operations dashboards, including real-time EV battery pack health (State of Health - SoH, temperature, voltage delta) monitoring for iRasus, distilling multi-sensor telemetry into actionable operator alerts.
- Architected end-to-end dual-role replenishment workflows and field telemetry screens for IndiaOne ATM, mapping rural cash-flow status, route optimization, and machine hardware diagnostics.
- Built and maintained scalable Figma design systems with strict design tokens (color variables, typography scales, spacing grids, component states), ensuring seamless developer handoff to React/Tailwind engineering squads.
- Leveraged modern AI-assisted prototyping tools (Cursor, Antigravity) and React/TypeScript to ship functional prototype environments, validating live operator interactions and edge cases before engineering lock-in.
- Designed a dual-channel mobile interface (responsive PWA + automated messaging) for high-volume order dispatching, eliminating peak-hour bottlenecks through streamlined operator status boards.

Senior UX/UI Designer
May 2024 – Sep 2025

Parla Retail (UK HQ — Chennai Office)

- Designed the enterprise consultation operations dashboard, streamlining consultant workflow throughput, real-time client queue management, and session telemetry across distributed retail teams.
- Worked directly with US enterprise stakeholders (Nebraska Furniture Mart) to architect the Show & Sell live interactive consultation interface, integrating real-time video, catalog search, and in-call checkout.
- Designed an integrated retail appointment scheduler with automated calendar sync and reminders, achieving a +31% lift in booking completion and −26% drop-off reduction (directional, pilot funnels).
- Created comprehensive UI specifications and interactive Figma prototypes with documented component variants, state changes, and error handling for frontend engineering squads.

Lead UX/UI Designer **Oct 2022 – Feb 2024**

Intellemo.AI — Gurugram, India

- Led UI/UX architecture for B2B SaaS marketing analytics dashboards, turning multi-variable campaign performance data into intuitive visual charts and automated optimization flows.
- Established a unified design language system and reusable UI component library across desktop and mobile, reducing frontend implementation time by 30%.
- Scaled platform user adoption from 1K to 10K+ users through systematic usability testing, iterative telemetry-driven UX enhancements, and simplified data navigation.

UX Designer & Software Developer Intern **Aug 2020 – Oct 2022**

Iconic Dream Focus — Chennai, India

- Won a competitive Tamil Nadu Government digital modernization project (Vandaloor Zoo platform) through accessible information architecture, interactive visitor maps, and ticketing flows.
- Served as Design Lead (Dec 2020 – Oct 2022), reducing project delivery cycles by 25% by introducing agile design sprints and designing the flagship “DRMURS” mobile social application from discovery to production launch.
- Collaborated directly with engineering squads to translate wireframes and UI designs into responsive web interfaces using HTML, CSS, JavaScript, and Bootstrap.

EDUCATION

B.Tech in Information Technology **2016 – 2020**

Loyola-ICAM College of Engineering and Technology — Chennai, India

Advanced UX/UI Design Certification **2020**

Aspira Design Institute — Chennai, India
