SANTHOSH A

Chennai, India | +91 99412 92729 | santhosh.a.designer@gmail.com | designbysanthosh.com | linkedin.com/in/santhosh-designer

SUMMARY

Design Engineer who owns product decisions on 0→1 products, with 6+ years orchestrating digital products, customer journeys, and production frontend engineering (Next.js, TypeScript, Figma). Proven track record framing ambiguous problems into testable hypotheses, driving product decisions, and delivering high-conversion experiences through rapid AI-assisted prototyping (Cursor, Claude Code, GitHub Copilot, Antigravity). Demonstrated success partnering with cross-functional engineering squads and working directly with enterprise clients (Nebraska Furniture Mart) to eliminate handoff friction and build responsible AI systems.

SKILLS

Product & Experience Design: 0→1 Product Decisions, Business Experience Design, Hypotheses Framing, Customer Journey Mapping, User Research, Usability Testing (Maze), Information Architecture, Conversion Rate Optimization.

AI & Prototyping Tools: AI-Assisted Prototyping (Cursor, Claude Code, GitHub Copilot, Antigravity), Responsible AI & Human-in-the-Loop Governance, Figma (Components & Variables, Auto Layout, Design Systems, Tokens), Figma-to-Code Implementation, Rapid Functional Prototyping.

Frontend Engineering: Next.js, React, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Supabase, REST APIs.

Leadership & Delivery: Stakeholder Alignment, Cross-Functional Collaboration, Agile / Scrum Sprints, Design-to-Code Systems, Mentorship.

EXPERIENCE

Co-Founder & Design Engineer

Oct 2025 – Present

Commerce Agents (Product Studio) — Chennai, India

- Led an integrated cross-functional team of 5 (3 interns, 1 client-acquisition consultant), owning product decisions, business experience design, and production frontend engineering.
- Framed an ambiguous ordering problem into testable bets: a menu-driven WhatsApp bot failed on real sentences, so I shipped two doors (PWA + one-sentence WhatsApp order), with the AI drafting and the server pricing. Misroutes were reproduced in tests before being called fixed.
- Architected 0→1 food ordering suite (mobile PWA, live kitchen dispatch board, WhatsApp bot), eliminating peak-hour phone chaos with 0% marketplace commission vs. third-party delivery aggregators. Owned research, client feedback, UX iteration and full-stack build (frontend to backend), using AI tools as coding support.
- Built a nightly AI pricing agent for Vidya's Kitchen that monitors item sales and ratings and recommends offer percentages; the kitchen approves or declines every change.
- Built the AI agents that scrape, review and score products for editorial pet platform We Two Pets (wetwopets.com), with a 2-human curation vote before listing to reduce hallucination risk.
- Designed enterprise telemetry and operations dashboards, including EV battery pack health (SoH) monitoring for iRasus and dual-role rural ATM replenishment workflows for IndiaOne ATM.

Senior UX/UI Designer **May 2024 – Sep 2025**

Parla Retail (UK HQ — Chennai Office)

- Worked directly with NFM's US clients to gather feedback and feature requirements to address high-value furniture showroom drop-offs.
- Designed the Show & Sell consultation experience (video, screen-sharing, in-call checkout).
- Designed an integrated retail appointment scheduler with automated calendar sync and reminders, achieving a +31% lift in booking completion and −26% drop-off reduction (directional, pilot funnels measured against early wireframe benchmarks).
- Redesigned the salesperson consultation dashboard, streamlining consultant workflows and client appointment throughput across distributed retail teams.

Lead UX/UI Designer **Oct 2022 – Feb 2024**

Intellemo.AI — Gurugram, India

- Led UI architecture overhaul of SaaS marketing automation workflows and automated AI ad generation interfaces.
- Restructured monetization and subscription UX with transparent billing tiers and clear value communication to support customer retention.
- Scaled platform adoption from 1K to 10K+ app downloads through systematic usability testing, friction reduction, and simplified AI automation flows.

UX Designer & Software Developer Intern **Aug 2020 – Oct 2022**

Iconic Dream Focus — Chennai, India

- Won a competitive Tamil Nadu Government digital modernization project (Vandaloor Zoo platform) through accessible information architecture.
- Led design workflows as Design Lead (Dec 2020 – Oct 2022), reducing project delivery cycles by 25% by establishing agile sprints and tighter design-engineering alignment. Designed flagship "DRMURS" mobile social application from discovery to production launch.
- Developed web applications as Software Developer Intern (Aug 2020 – Nov 2020) utilizing HTML, CSS, JavaScript, and Bootstrap under strict sprint deadlines.

EDUCATION

B.Tech in Information Technology **2016 – 2020**

Loyola-ICAM College of Engineering and Technology — Chennai, India

Advanced UX/UI Design Certification **2020**

Aspira Design Institute — Chennai, India
