SUMMARY

Product Designer (UI/UX) with 5+ years designing intuitive mobile and web experiences at product-driven tech companies. Proven track record leading continuous user discovery, conducting usability testing, and translating complex behavioral and operational workflows into clean, empathetic interfaces. Expert in Figma component systems, interactive mobile prototyping, and partnering with product managers and engineers in fast-paced, asynchronous startup environments with a strong bias toward action ("done is better than perfect").

SKILLS

Product & Experience Design: Mobile App UI/UX (iOS & Android), Web Platforms, Product Discovery, Customer Journey Mapping, User Research & Usability Testing (Maze), Information Architecture, Wireframing & Storyboarding, User Engagement & Conversion Optimization.

UI Craftsmanship & Prototyping: Figma (Component Libraries, Auto Layout, Variables & Tokens, Interactive Micro-Prototypes), Design Systems & Documentation, UI Elements (Menus, Navigation, Banners, CTAs), Typography & Visual Hierarchy, Accessibility (WCAG).

Technical Fluency & Build: Rapid Functional Prototyping, Design-to-Code Implementation, Next.js, React, TypeScript, HTML5/CSS3, AI-Assisted Prototyping (Cursor, Antigravity, GitHub Copilot).

Collaboration & Culture: Cross-Functional Team Leadership, PM & Engineering Alignment, Agile / Scrum Sprints, Rapid Iteration, Mentorship.

EXPERIENCE

Co-Founder & Product Designer
Oct 2025 – Present

Commerce Agents (Product Studio) — Chennai, India

- Spearheaded end-to-end product design and user experience for mobile-first consumer and operational applications, establishing rapid user feedback loops and shipping 0→1 digital experiences.
- Conducted direct user discovery and usability sessions to identify friction in ordering workflows; architected a dual-channel mobile interface (responsive PWA + natural language flow) that resolved user drop-offs during peak hours.
- Designed, maintained, and documented scalable design systems in Figma with reusable UI component libraries (navigation bars, search filters, modal sheets, and action cards), ensuring pixel-perfect engineering handoffs.
- Built and validated interactive functional prototypes directly in code and staging environments, cutting design-to-production turnaround time and iterating on user feedback before deployment.
- Designed telemetry and operations dashboards (including EV battery health monitoring for iRasus and rural ATM workflows for IndiaOne ATM), transforming complex data into clear, accessible visual hierarchies.

Senior UX/UI Designer
May 2024 – Sep 2025

Parla Retail (UK HQ — Chennai Office)

- Led UX/UI design for the core live video-shopping and interactive consultation platform deployed for major US and UK enterprise retail clients, including Nebraska Furniture Mart (NFM).
- Collaborated directly with US client stakeholders and end users to design an integrated consultation booking scheduler with automated reminders, achieving a +31% lift in booking completion and −26% drop-off reduction (directional, pilot funnels).
- Created wireframes, interactive Figma prototypes, and user journey maps for in-call commerce tools, including live screen sharing, real-time product discovery widgets, and frictionless checkout.
- Redesigned the consultant operations dashboard, simplifying appointment throughput, customer history tracking, and workflow management for remote retail teams.

Lead UX/UI Designer
Oct 2022 – Feb 2024

Intellemo.AI — Gurugram, India

- Led end-to-end UI/UX architecture for B2B SaaS marketing automation tools, transforming complex multi-step campaign configuration into intuitive, step-by-step self-service journeys.
- Restructured subscription and billing touchpoints with transparent pricing tiers, clear value messaging, and streamlined payment flows to reduce customer churn.
- Scaled platform user adoption from 1K to 10K+ app downloads by implementing usability testing, user feedback analysis, and friction-reducing navigation overhauls.

UX Designer & Software Developer Intern
Aug 2020 – Oct 2022

Iconic Dream Focus — Chennai, India

- Designed accessible mobile and web applications, winning a competitive Tamil Nadu Government modernization project (Vandaloor Zoo platform) through clear information architecture and intuitive navigation.
- Served as Design Lead (Dec 2020 – Oct 2022), reducing project delivery cycles by 25% by introducing agile design sprints and designing the flagship “DRMURS” mobile social application from discovery to production launch.
- Collaborated with engineering squads to translate wireframes and UI designs into responsive web interfaces using HTML, CSS, JavaScript, and Bootstrap.

EDUCATION

B.Tech in Information Technology
2016 – 2020

Loyola-ICAM College of Engineering and Technology — Chennai, India

Advanced UX/UI Design Certification
2020

Aspira Design Institute — Chennai, India
