SUMMARY

Senior Product Designer & Design Engineer with 6+ years of experience delivering high-craft **Mobile & AI-native product experiences** from fuzzy exploration directly into production. Specializes in designing mobile-first applications that feel effortless and natural—combining sharp visual taste, thoughtful micro-interactions, and systematic design tokens. Built AI SaaS interfaces scaling from 1K to 10K+ users at **Intellemo.AI**, designed the high-conversion mobile PWA and operational dispatch suite for **Vidya's Kitchen** (−40% transaction latency), and engineered multi-model AI workflows with human oversight at **Commerce Agents**. Figma-Pro power user (Variables, Design Tokens, Advanced Auto-Layout) backed by a B.Tech in IT to partner seamlessly with engineering squads and hold the highest bar on craft.

SKILLS

Mobile & AI Product Design: Mobile-First Product Architecture (iOS, Android, PWA), AI-Native Interaction Design, Conversational Agents, Natural Language Workflows, State Transitions, Micro-Interactions, User Journey Mapping.

Figma-Pro & Design Systems: Figma Variables, Semantic Token Architecture, Advanced Auto-Layout, Component Variants, Interactive Prototyping, Design System Scalability & Governance, Cross-Platform Consistency.

Interaction Craft & UX Execution: Information Architecture, Rapid Wireframing, UX Copywriting, Usability Auditing, User Testing, Heuristic Evaluation, Conversion Rate Optimization (CRO), Human-Centered Design.

Design Engineering & Platform Fluency: Cursor AI, React.js, TypeScript, Next.js, HTML5, CSS3, Tailwind CSS, REST APIs, Git, Design-to-Code Implementation, Cross-Functional Technical Collaboration.

EXPERIENCE

Co-Founder & Lead Design Engineer

Oct 2025 – Present

Commerce Agents (Product Studio) — Remote / Chennai, India

- **Vidya's Kitchen (Featured Mobile & AI-Native Case Study):** Designed and shipped an end-to-end mobile commerce ecosystem and dispatch platform from 0→1, reducing customer transaction latency by **40%**:
  - *Mobile-First PWA Experience:* Crafted an installable, app-grade mobile interface with thumb-zone ergonomics, bottom sheet filters, and persistent order status trays that turn multi-step tasks into effortless actions.
  - *AI Conversational Agent:* Designed the WhatsApp Cloud API conversational ordering flow, parsing ambiguous customer sentences into structured cart items with automated payment handoffs.
  - *Operational Dispatch Console:* Architected real-time kitchen and driver dispatch boards featuring high-contrast states, live order sync, and manual supervisory override guardrails.
- **We Two Pets (Mobile Commerce & Multi-Model AI Engine):** Designed an editorial mobile shopping storefront and autonomous catalog curation engine (Gemini vision + perceptual image hashing), featuring a 1-page phone OTP checkout and a strict 2-human curation veto gate.
- **AWS re/Start Admissions Platform:** Architected, prototyped, and launched the national admissions portal in under 24 hours using Cursor AI and Model Context Protocol (MCP) connectors, capturing 10,000+ candidate applications with zero defects.
- **Design Systems Architecture:** Built and maintain tokenized component systems in Figma using variables, cutting design-to-development cycles by 35% through standardized handoffs.

Senior UX/UI Designer
May 2024 – Sep 2025

Parla Retail (UK HQ — Chennai Office)

- Designed and shipped **Show & Sell**, an enterprise real-time collaborative consultation platform for Nebraska Furniture Mart (largest US single-location home retailer), integrating live video, dynamic moodboards, and in-call checkout.
- Architected an intuitive retail appointment scheduling engine with automated calendar sync and SMS reminders, achieving a **+31% lift in completed sessions** and reducing drop-offs by **26%**.
- Tackled complex interaction design challenges around network latency, video fallback states, and multi-user cursor synchronization, ensuring interactions felt natural and reliable under poor connectivity.
- Partnered closely with US and UK engineering squads, translating user feedback from customer calls directly into iterative design improvements and scalable Figma component libraries.

Lead UX/UI Designer
Oct 2022 – Feb 2024

Intellemo.AI — Gurugram, India

- Led UX and interaction architecture for an AI marketing automation platform, translating complex algorithmic ad-generation models into guided, user-friendly wizard workflows.
- Scaled user adoption from **1K to 10K+ app downloads** through systematic usability audits, rapid prototyping, and streamlined onboarding journeys.
- Redesigned subscription billing tiers, token credit indicators, and upgrade funnels, driving a revenue conversion lift from **0.35% to 13%**.
- Maintained the core design system across web and mobile web surfaces, championing design excellence and visual consistency across weekly feature releases.

UX Designer & Software Developer Intern
Aug 2020 – Oct 2022

Iconic Dream Focus — Chennai, India

- Conducted contextual user interviews, journey mapping, and competitive analysis to design clean information architectures for consumer mobile apps.
- Developed responsive, interactive UI components using React.js, HTML5, and CSS3, bridging visual Figma designs into pixel-perfect production code.

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology
2016 – 2020

Loyola-ICAM College of Engineering and Technology (LICET), Anna University — Chennai, India

Advanced UX/UI Design Certification
2020

Aspira Design Institute — Chennai, India
