SUMMARY

UX Designer & Design Engineer with 5+ years of experience designing real-time operator dashboards, telemetry interfaces, and scalable design systems for complex engineering and automation environments. Proven track record distilling multi-sensor telemetry, operational workflows, and low-latency alerts into high-clarity operator experiences (EV battery pack analytics for iRasus, rural logistics and machine diagnostics for IndiaOne ATM). Combines advanced Figma design system architecture with hands-on technical fluency (B.Tech in IT, React, TypeScript) and modern AI-assisted workflows to rapidly translate complex engineering requirements into tangible, testable prototypes. Experienced collaborating with distributed cross-functional squads and international enterprise stakeholders.

SKILLS & EXPERTISE

Complex Systems & Dashboard Design: Real-Time Operator Dashboards, Telemetry & Sensor Data Visualization, Industrial Automation Interfaces, Complex Workflow Simplification, Information Architecture (IA), Wireframing & High-Fidelity UI, Usability Testing (Maze), Accessibility (WCAG 2.1 AA).

Design Systems & Figma Craft: Figma (Component Architectures, Variables & Design Tokens, Auto Layout, Interactive Micro-Prototypes), Reusable UI Component Libraries, Developer Handoff Specs, Design System Governance, Responsive Layouts.

AI Workflows & Rapid Prototyping: AI-Assisted Design & Prototyping (LLM-Assisted Workflows, Cursor, Antigravity), Rapid Functional Code Prototyping, Design-to-Code Feasibility, Early Usability Validation.

Frontend Fluency & Collaboration: React, Next.js, TypeScript, HTML5, CSS3, Tailwind CSS, Supabase, WebRTC & REST APIs, Cross-Functional Alignment with Product Managers, R&D Engineers, and Global Enterprise Stakeholders.

EXPERIENCE

Co-Founder & Design Engineer

Oct 2025 – Present

Commerce Agents (Product Studio) — Chennai, India

- Designed and prototyped mission-critical telemetry and operations dashboards, including real-time EV battery pack health (State of Health - SoH, cell temperature, voltage delta) monitoring for **iRasus Technologies**, distilling complex multi-sensor data into actionable operator alerts.
- Architected end-to-end field telemetry screens and dual-role replenishment workflows for **IndiaOne ATM**, mapping rural cash-flow status, route optimization, and machine hardware diagnostics to reduce kiosk maintenance downtime.
- Built and maintained scalable Figma design systems with strict design tokens (variables, typography scales, spacing grids, component states), ensuring seamless developer handoff to React/Tailwind engineering squads.
- Leveraged modern AI-assisted prototyping tools and React/TypeScript to ship functional prototype environments, validating live operator interactions and edge cases before engineering lock-in.
- Designed and shipped **Vidya's Kitchen** (mobile PWA, live kitchen dispatch board, automated ordering bot) and **We Two Pets** (wetwopets.com, curated pet platform with autonomous catalog verification).

Senior UX/UI Designer
May 2024 – Sep 2025

Parla Retail (UK HQ — Chennai Office)

- Owned product design for the core live video-shopping platform in direct partnership with UK leadership and US enterprise retail client **Nebraska Furniture Mart (NFM)**.
- Designed the **"Show & Sell"** live interactive consultation suite (WebRTC video, interactive screen sharing, real-time catalog search, and in-call checkout), achieving a **+31% lift in booking completion and −26% drop-off reduction**.
- Architected an integrated customer appointment scheduler with automated calendar sync and multi-channel notifications, removing manual email bottlenecks for remote retail consultants.
- Redesigned the consultant operations dashboard to streamline customer queue management, live session telemetry, and post-session notes across distributed teams.
- Delivered comprehensive Figma design specifications, interactive prototypes, component states, and edge-case documentation for frontend engineering squads.

Lead UX/UI Designer
Oct 2022 – Feb 2024

Intellemo.AI — Gurugram, India

- Led UI/UX architecture for B2B SaaS marketing analytics dashboards, turning complex multi-variable campaign performance data into intuitive visual charts and automated optimization flows.
- Established a unified design language system and reusable UI component library across desktop and mobile, reducing frontend implementation time by 30%.
- Restructured monetization, onboarding, and subscription tiers with transparent billing communication, scaling platform user adoption from **1K to 10K+ users**.

UX Designer & Software Developer Intern
Aug 2020 – Oct 2022

Iconic Dream Focus — Chennai, India

- Won a competitive Tamil Nadu Government digital modernization project (Vandaloor Zoo platform) through accessible information architecture, interactive visitor maps, and ticketing flows.
- Served as Design Lead (Dec 2020 – Oct 2022), cutting delivery cycles by 25% by introducing agile design sprints; designed the flagship "DRMURS" mobile social application from discovery to production launch.
- Collaborated with engineering squads to translate wireframes and UI designs into responsive web interfaces using HTML, CSS, JavaScript, and Bootstrap.

EDUCATION & CREDENTIALS

B.Tech in Information Technology
2016 – 2020

Loyola-ICAM College of Engineering and Technology — Chennai, India

Advanced UX/UI Design Certification
2020

Aspira Design Institute — Chennai, India

UX/UI Mentor
Apr 2024 – Present

FITA Academy — Chennai, India (Mentored 100+ designers; guided 20+ successful career placements)
