SUMMARY

Product Designer II with 6+ years of experience specializing in complex B2B enterprise software, high-consequence transactional workflows, data-dense operations dashboards, and scalable design systems. Track record designing for multi-stakeholder ecosystems—from compliance/operations analysts and rule managers to end users undergoing verification. Deep technical grounding (B.Tech in IT, React.js, Supabase, SQL, Java) enabling seamless cross-functional execution with Product Managers and Forward-Deployed Engineers. Combines systematic interaction design, edge-case anticipation, and robust component architecture with a steadfast focus on clarity over cosmetics. Active design mentor to 100+ designers. Based in Chennai, India.

SKILLS & EXPERTISE

B2B SaaS & Complex Systems Design: Complex Data-Dense Interfaces, Multi-Role Workflows (Analysts, Ops & Admin), Rule Engines & Flagging Logic, State Modeling, Error Recovery & Edge-Case Architecture, End-to-End Product Lifecycle (Discovery to Launch & Iteration).

Design Systems & Interaction Craft: Design System Scalability & Governance, Design Tokens (Variables, Spacing, Typography Hierarchies), Modular Component Architectures, Interactive High-Fidelity Prototyping (Figma), Developer Handoff Documentation.

UX Research, Usability & Analytics: Workflow Observation & User Interviews, Information Architecture (IA), Task Flow Optimization, Usability Testing (Maze), Data-Informed Iteration, WCAG 2.1 AA Accessibility Standards.

Engineering Grounding & Data Tools: React.js, HTML5, CSS3, Bootstrap, Java (JEE, Spring Boot), SQL, Supabase, Tableau (BI & Analytics), REST APIs, Technical Feasibility Reviews with Engineering Squads.

EXPERIENCE

Co-Founder & Design Engineer

Oct 2025 – Present

Commerce Agents (Product Studio) — Chennai, India

- **Operational Mobile UX (IndiaOne ATM Franchise App):** Designed a specialized mobile management app for an ATM franchise owner to streamline cash replenishment and field loadmen operations; designed dual-role doorways (Admin vs. Loadman), large high-contrast denomination calculators, and clean bank deposit cross-checks to eliminate messy paper notebook tracking.
- **Industrial Telemetry & Rule Monitoring (iRasus Technologies):** Architected high-density real-time telemetry dashboards for EV battery pack health (State of Health - SoH, cell voltages, temperature delta); designed rule-based threshold alerting, risk categorization flags, and historical trend comparisons for operational safety analysts.
- **Vidya's Kitchen (0→1 PWA & Ops Dispatch):** Designed the end-to-end food commerce PWA, real-time kitchen operations dispatch console, order fulfillment status tracker, and automated WhatsApp conversational ordering engine on Next.js/Supabase, eliminating manual order failure states.
- **Unified Operations Surface (Ezra Dashboard):** Architected an internal operations portal for batch coordinators and educators, replacing fragmented spreadsheets with unified attendance verification, cohort progress analytics, and automated milestone handoffs.
- **Design System Architecture:** Authored and maintained production-grade Figma design libraries using design tokens, unified component states (default, active, loading, empty, error), and precise developer handoff guidelines.

Senior UX/UI Designer
May 2024 – Sep 2025

Parla Retail (UK HQ — Chennai Office) — Chennai, India

- Led end-to-end product design for the core interactive remote video commerce platform in direct alignment with UK leadership and US enterprise retail client **Nebraska Furniture Mart (NFM)**.
- Designed the flagship **"Show & Sell"** live consultation interface (synchronizing live WebRTC video, catalog search, real-time cart manipulation, and in-call checkout), driving a sales-reported **+31% lift in booking completion and −26% drop-off reduction**.
- Architected an enterprise scheduling engine with time-zone intelligence, automatic advisor assignment, calendar synchronization, and resilient fallback states for missed sessions.
- Redesigned the consultant operations console, consolidating queue prioritization, live customer telemetry, and post-call CRM logging into a single, clutter-free screen.
- Mapped end-to-end system edge cases (network latency drops, payment verification failures, multi-tab conflicts) to ensure rock-solid workflow reliability.

Lead UX/UI Designer
Oct 2022 – Feb 2024

Intellemo.AI — Gurugram, India

- Spearheaded UX/UI architecture for an AI-powered B2B marketing analytics SaaS platform, transforming complex multi-channel performance data into actionable insights and rule-based automation workflows.
- Established a comprehensive design system and reusable component repository across web and mobile surfaces, reducing engineering delivery cycles by 30%.
- Designed transparent billing, usage tier limits, and enterprise onboarding flows, contributing to product adoption scaling from **1K to 10K+ active users**.

UX Designer & Software Developer Intern
Aug 2020 – Oct 2022

Iconic Dream Focus — Chennai, India

- Led UX architecture for the Tamil Nadu Government digital modernization project (Vandaloor Zoo platform), structuring visitor flows, online ticketing validation, and interactive geographic navigation.
- Promoted to Design Lead (Dec 2020 – Oct 2022), reducing cycle time by 25% through agile design sprints; designed the "DRMURS" mobile social platform from discovery through production launch.
- Partnered directly with engineering squads to build and test responsive web components utilizing HTML5, CSS3, JavaScript, and Bootstrap.

EDUCATION & CREDENTIALS

B.Tech in Information Technology
2016 – 2020

Loyola-ICAM College of Engineering and Technology — Chennai, India

Advanced UX/UI Design Certification
2020

Aspira Design Institute — Chennai, India

UX/UI Mentor
Apr 2024 – Present

FITA Academy — Chennai, India (Mentored 100+ designers; guided 20+ successful career placements)
